

CALIFORNIA INVASIVE WEEDS AWARENESS WEEK

July 20th-26th, 2009

POINT REYES NATIONAL SEASHORE

Date: July 21st, '09

Time: 9am - 4pm

Site: Lake Ranch

Invasive Weeds:

oxeye daisy
(*Leucanthemum
vulgare*),
capeweed
(*Arctotheca
calendula*)

Date: July 26th, '09

Time: 9am -
3:30pm

Site: Tomales
Point, Tule Elk
Range

Invasive Weed:

capeweed
(*Arctotheca
calendula*)

Invasive weeds are known to heavily colonize habitats with an adverse effect on their adapted environment. In northern California, invasive weeds reduce plant and animal diversity, restrict dune movement and may create a fire hazard.

What can YOU do?

Become a land steward by joining the Point Reyes Habitat Restoration Team during California's Invasive Weeds Awareness Week!

For more information contact Ellen Hamingson at 415.464.5196 or Ellen_Hamingson@nps.gov.
Groups and individuals can also schedule other workdays to fit their schedules.
